

As reported by Rich Nederostek, Driver Recruiter out of our Reading Branch:

It's 2:30 AM as TransForce Driver James Blake rolls down Route 76 just outside of Morgantown, PA when he sees a distressed person on the side of the road waving him down. James pulls safely off the shoulder and responds to the scene where the individual and a passenger inform him that their vehicle is on fire and one remaining passenger can't get out from the rear seat of the vehicle.

Unable to open the doors from the outside James quickly took action by removing his shirt which he then wrapped around his fist and smashed out the window clearing away the broken glass before assisting the passenger out of the vehicle. Once safely out of harm's way James and the three passengers watched as the vehicle burst into flames prior to the arrival of emergency personnel.

Please join me in expressing our thanks to James for his heroic response in this emergency situation and for setting another example of a TransForce employee going above and beyond to provide assistance.

Larry G. Parrotte, COO
