

It is my pleasure to welcome Howard Fowler to TFI as our Chief Financial Officer. Howard joined TransForce on June 25, 2007. If you have not had the opportunity to speak with Howard, please take a moment to welcome him aboard.

Howard has nearly 20 years of experience in financial management and accounting. Immediately prior to joining us, Howard was the Vice President and Chief Financial officer for the American operations of Swissport. This US operation had annual revenues greater than 500 million. He is very knowledgeable in areas that will take TFI to the next step in its history. Howard will also resume the responsibilities for our risk management programs. Howard and his team will be introducing new ideas, such as a safety program, to help decrease our workers compensation claims and new matrix to track our businesses.

Again, please take a moment to welcome Howard aboard.

David Broome
President & CEO
TransForce, Inc.
