David Wiest Honored As TransForce Driver Of The Year In 2009

SPRINGFIELD, Va. - TransForce Inc., the nation's leading provider of outsourced drivers to the trucking industry and DOT compliance solutions across the USA, has selected David Wiest of the company's Harrisburg (PA) branch as the 2009 TransForce Driver of the Year.

"We are proud to have someone of Dave's skills and character at TransForce," said TransForce President David Broome. "He embodies the company's commitment to safety, quality and compliance."

Wiest joined TransForce in November 2005. He is the safety chairman for TransForce and the account he is assigned to, Penske Logistics in Harrisburg. Along with that responsibility, he also assists with log, hours of service questions and trains new drivers according to customer requirements.

"Dave is consistently willing to go the extra mile for both our customers and for TransForce," said Harrisburg TransForce General Manager Jamie Hamm. "His attention to detail and his incredible focus on safety makes this honor well-deserved."

Wiest fills in on weekends if there is a driver needed, and strives to make TransForce a cut above the rest of its competition. Upon learning of possible new customers, he reaches out to the Harrisburg office, and hands out business cards to drivers looking for employment. On weekends, he spends hours researching materials helpful to the safety and well-being of drivers.

Wiest's selection was based on a number of factors, including his years of experience, attendance, overall leadership, focus on safety and excellent driving record. Wiest joins a select group of drivers at TransForce, as the honor has been given at the Springfield, Va.-based company since 1991.

"Safety and customer service are top priorities at Penske Logistics," said Stanley Stone, Vice President, Safety, Penske Logistics. "TransForce is a valued supplier because they share this common focus. We congratulate Dave Wiest for his outstanding performance that helps both companies succeed with customers and to operate safely."
