TransForce Celebrates Twentieth Anniversary

SPRINGFIELD, Va. – July 18, 2011 - TransForce Inc. is pleased to announce our Twentieth Anniversary. Established in 1991, TransForce is the nation's leading specialty staffing firm devoted exclusively to the transportation industry. TransForce has grown from its original three offices in 1991 to its present 33-office network through a very deliberate approach based on safety, DOT compliance and customer service.

President, CEO and Founder David Broome says: "We are proud of our drivers' collective record of safe driving. Truck drivers are a critical part of the nation's supply chain. Safety is a shared commitment among our drivers, our customers and TransForce. We strive to provide personal service to each of our customers so we can meet their unique needs."

TransForce is raising the awareness of its services and of its safety leadership position in the industry. David Broome is a leader of the Driver Employment Council of America (DECA), the industry trade group. He actively promotes high standards throughout the driver staffing industry. Joe Dolan, Vice President of Operations, says "We want all motor carriers to be aware of our capabilities so we can contribute to their supply chain solutions. Our staff is diligent in trying to meet our customers' needs and we actively communicate with our customers at all stages of the process."

In addition to David Broome, many of TransForce's managers have been with the Company for ten or more years and have contributed to the growth of the Company. Cassie Smith, Vice President of Human Resources, herself a ten-year veteran, says: "The stability of our managers contributes to our long-term focus on customer service and compliance. We have worked with many of the same customers for many years and we strive to be a key part of their risk management processes."
